

## All My Love

### What you will need to recreate this project:

- 1 x A5 card blank - black
- 1 x A5 card insert - white
- 1 x 11 cm square double sided paper
- 1 x 4 x 21 cm strip foiled card or paper - to coordinate with paper
- 1 x 7 cm foiled card - silver
- Peel off borders - silver
- 2 x small ornate peel off corners - silver
- 4 x medium acrylic gem stones - to coordinate with paper
- 4 x small ornate hearts
- Decorative edged scissors
- Sprinkling of the word 'Love' foiled confetti

### How to assemble this project:

With the A5 card in portrait position, measure & mark the centre point at approx. 7.4 cm both top & bottom, score this line before folding & creasing well. Secure the paper insert within the card.

Using the decorative edged scissors, trim up both long sides of the foiled paper & using double sided adhesive tape (DST) position centrally down the front of the card. Trim both decorative edges with border peel offs.

Using the same scissors, trim around the square of silver foil card & using DST, secure in a central position down the foiled paper band.

Using a suitable adhesive, position two of the small ornate hearts above the foil plaque & two below - see main picture.

### Assembling the embellishment using the square of double sided paper:

- Picture 1: Fold the square corner to corner in both directions & then once across the centre.
- Picture 2: Fold all four corners to the centre
- Picture 3: Turn the work so as to fold both sides into the centre line
- Picture 4: Open up these folds to reveal the corner flaps

Picture 5: Tuck these corner flaps beneath the larger fold

Picture 6: On the other two sides, fold the corner back so it is level with the outer edge of the work then open up the flap

Picture 7: Fold the first two sides to the centre line

If you look at the work now you will see that it has formed three square shapes in a line.

Picture 8: Check where the diagonal fold is on the reverse of the work & use this as a guide to fold against to form a diagonal fold through the centre square

Picture 9: Using the previous fold to guide you, form another diagonal fold in the opposite direction through this centre square.

Picture 10: Slide your fingers inside this last fold & open it up from the centre of the square outward

Pictures 11 & 12: Fold in on top of the central square as in picture 12

Pictures 13 & 14: Fold in the protruding side flaps to reform a square shape

Pictures 15 & 16: Fold the two free corners back to the centre of the new square

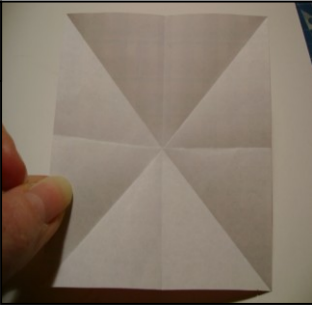

Picture 17: Fold the new point back upon itself to the outer edge of the work. Repeat steps 10 to 17 with the opposite edge of the work

Picture 18: The completed embellishment closed

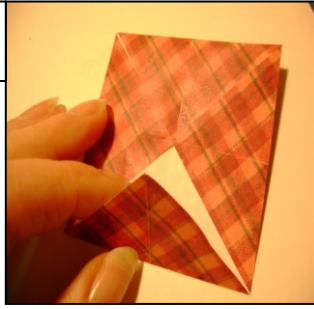

Picture 19: The completed embellishment open

Open up the embellishment & sprinkle in a good pinch of the confetti words & close up again, then using DST, secure to the silver foil panel on the card front. Add peel off corners to the two wings, as well as the four acrylic embellishments.
