

# Cafe Latté Card Collection

## (5) Glittering Flora & Fauna

What you will need to replicate this project:-

1 x A5 Card stock – brown

10 x 14 cm rectangle cut from the 30 cm square sheet

1 x 6.3 x 9.5 cm die cut frame (Cuttlebug embossing plus) - brown

Circular cut out from above - cream

1 each 5.5 x 3.5 cm Glittered butterfly die cut – gold

4 x 2.5 cm Glittered butterfly die cut – brown

2 x daisy flower die cuts – gold

1 x daisy flower die cut – brown

3 small glass raindrop gems

4 corner peel offs – gold

Assembling the project:

With a brown card blank in portrait position, measure & mark both top & bottom at the central point at approx. 10.5 cm. Score in the line & fold, creasing the card well.

Secure the decorative paper centrally to the card front. Attach a corner peel off to each corner of the paper.

Using double sided foam tape, mount the frame centrally onto the paper & using the cut out from a cream frame, stick this flat through the aperture & onto the paper below.

Attach the three glittered flowers overlapping the aperture at approx. the 1 o'clock position, securing a raindrop gem to the centre of each.

Using more foam tape, secure the larger of the butterflies at approx. the 7 o'clock position, apply foam tape to the back of the smaller butterfly, down the body section & position on top of the first. Tweak the wings to give the illusion of movement.
