

# Mystic Moonshine Spirelli

What you will need to create this project:

- 1 x A4 card - black
- 1 x A5 decorated/embossed paper - silver
- 1 x A4 speckled card - black/metallic
- 1 x A5 foiled card - gold
- Silver thread
- Scrap of ribbon
- 8 x small star shaped brads - silver
- Moulded moon embellishment - silver & gold
- 1 x ornate corner peel off - silver
- Decorative scalloped edge scissors
- DST (double sided adhesive tape) or tacky glue
- 3D pads

How to assemble this project:

With the A4 black card in horizontal position, measure and mark the centre point, both top and bottom - usually around 14.8 cm. Use the edge of the closed scissors to 'draw' in the line rather than using a pencil. This is called 'scoring', and it helps break down the fibres of the card to make it easier to fold. Fold into the scored line - if you fold away from the scored line your card may crack. Using pressure from your forefinger on the tip of the ruler, drag down the fold to sharpen the crease.

With the A5 piece of silver paper flat on your work surface lay a ruler diagonally from the top left to bottom right corners & roughly tear against the ruler - toward you, this will give you a ragged white edge. Using either DST or tacky glue, position this torn scrap aligning it to the fold of the main card, allow a small border to show.

From the gold foil card cut the following pieces: 1 x 11.2 x 10.9 cm & 1 x 4 x 11.3 cm.

From the speckled card cut the following: 1 x 13.3 x 12.9 cm; 1 x 12.7 x 5.1 cm; 1 x 9.8 x 2 cm & finally 1 x 10 cm square. Using the decorative edged scissors trim down this square to approx. 9 cm square. With the silver thread, wrap around the decorative edge to form a deep border.

*(The square I created had 18 indentations along each side; I wrapped the threads at 27 indentations apart).* Attach the moon embellishment into the centre.

Carefully poke a hole in each corner of the two largest pieces of black speckled card & attach a brad in each.

Layer up the smaller card pieces - using 3D pads & then wrap the ribbon around the stack & tie a bow.

Taking care not to disturb the Spirelli work, attach 3D pads to the reverse of the wrapped card & position centrally onto the gold foil card. Layer this onto the black speckled card.

Using DST or tacky glue, position the large panel centrally on to the top of the main card & the smaller panel below.

Attach the corner peel off onto the lower right hand corner of the smaller panel.
