

Paris Nights Collection Decadence

What you will need to re-create this project:

- 1 x A5 card - mushroom
- 10 x 14 cm piece from the 12" square paper
- 7 x 9 cm piece Core'dinations card stock - cream
- Fine line border peel offs - gold
- 4 x medium butterflies - bright gold
- Scraps of acetate

How to assemble this project:

A real easy one to begin your collection!

With the A5 card in landscape position, measure & mark the central point both top & bottom at approximately 10.5 cm. Score in this line & fold, creasing well.

Distress the piece of Core'dinations with an emery board to reveal the core. Carefully wipe clean to remove all dust before applying fine line border peel offs to the edges, & also to the edges of the paper piece.

With your preferred adhesive, secure the paper centrally to the front of the card, & the distressed panel to the lower right hand corner.

Fix two of the butterflies, at jaunty angles, to the distressed card. Layer up the remaining two onto scrap acetate & trim around the edges. Gently curve the wings to imitate flight & using a glue gel, fix into position above the first two. Put aside & leave to dry thoroughly.
