

Pyramid Fold Card - Worksheet

Cut a strip of card measuring 29.6 x 7.4 cm, plus a square measuring 7.4 cm
With the card strip in landscape position, measure & mark the top at 7.4; 8.3 & 21.6 cm. Mark the following points along the bottom: 7.4; 12.2; 16.6 & 22.2.
Score in these lines as indicated by the blue perforated line in diagram 1.
Fold firstly the angled lines by bringing the end of the card across the main body of the central section & then folding the straight score line back in the original direction. Repeat with the other end of the card.
Finally, using the 7.4 cm square of card - attach between the angles of the two end squares – indicated by the grey panel in the diagram 2.

Decorated Card
