

Shaped star folded card templates

Cut out this shadowed area & insert acetate or coordinating card to add strength.

Instructions:

1. Cut out both templates.
2. Cut away the shadowed area on the main template.
3. Use this main template to trace onto your card & cut out.
4. Score the visible blue perforated lines only – not right across the card.
5. Fold card – the frame shape will be the back of the card & may need strengthened with acetate or other card depending on the weight of the main card you use & how much weight you add to the front.
6. Use the star templates to cut mats to layer on the front of your card.
